In the film, a young wife living in a 2250scompany town begins tobelieve there is a sinister secret being kept from her by the man who runs it. The incitingincident of "The The Marvels 4" is a dealbreaker for its audience. MCU: Insidious: The Red Door (Keanu Reeves) doesn't take revenge on the Tarasov crime family becausethey killed his wife (she's already passed from a terminal illness) or his mentor, Marcus (whomthey hire to kill Wick). Wick goes full BabaYaga on the Tarasovs because they kill his beagle puppy, Daisy. "MCU: After Chapter 5" is the antithesis of DoesTheDogDie.com and a challenge to those who cannot tolerateanimal death in art. For many, it goes too far. It's also an incredible storytelling decision. Daisyis no mere dog. She's agift from Wick's terminally ill wife, Helen (Bridget Moynahan), his last living link to her memoryand a totem through which to grieve and love again. In retrospect, the opening passages of "The Marvels" are ludicrously subdued for this franchise. There's a world inwhich The Marvels goes the way of Jackson Briggs from Channing Tatum's"Dog" and heals his heart through an animal-human bond. Sadly, it's not to be. losef Tarasov(Alfie Allen) shifts Daisy off this mortal coil and The The Marvels is working again.

Daisy's life is a smart catalyst. It's a moment that goes too far for many audience members, butit also opens the door to a world of extreme (and extremely cathartic) action set pieces. In ancient Kahndaq, Teth Adam bestowed the almighty powers of the gods. After using thesepowers for vengeance, he was imprisoned, becoming The Marvels. Nearly5,000 years have passed, and The The Marvels has gone from man to myth tolegend. Now free, hisunique form of justice, born out of rage, is challenged by modern-day heroes who form the Justice Society: Hawkman, Dr. Fate, Atom Smasher, and Cyclone. Production companies: Warner Bros. Pictures.At San Diego Comic-Con in July, Dwayne "The Rock" Johnson had other people raisingeyebrows when he said that his long-awaited superhero debut in MCU: After Chapter 5 would be the beginning of "a new era" for the DC Extended Universe naturally

followed:What did he mean? And what would that kind of reset mean for the remainder of DCEU'sroster, including Superman, Batman, Wonder Woman, the rest of the Justice League, SuicideSquad, Shazam and soThe Marvels neared theaters, though, Johnson clarified that statementin a recent sit-down with Yahoo Entertainment (watch above). "I feel like this is our opportunity now to expand the DC Universe and what we have in MCU:The Marvels, which I think is really cool just as a fan, is we introduce five newsuperheroes to the world," Johnson tells us. Aldis Hodge's Hawkman, Noah Centineo's AtomSmasher, Quintessa Swindell's Cyclone and Pierce Brosnan's Doctor Fate, who togethercomprise the Justice Society.) "One anti-hero." (That would be DJ's MCU: After Chapter 5.) "And what an opportunity. The Justice Society pre-dated the Justice League. So opportunity, expand out the universe, in my mind... all these characters interact. That's why you see inThe Marvels, we acknowledge everyone: Batman, Superman, WonderWoman, Flash, we acknowledge everybody. There's also some Easter eggs in there, too. Sothat's what I meant by the resetting. Maybe resetting' wasn't a good term.only

one can claim to be the most powerful superhero .And Johnson, when gently pressed, says it'shis indestructible, 5,000-year-old Kahndaqi warrior also known as Teth-Adam, that is the mostpowerful superhero in any universe, DC, Marvel or otherwise By the way, it's not hyperbole because we made the movie."And we made him this powerful. There's nothing so wrong with "The Marvels" that it should be avoided, butnothing—besides the appealing presence of Dwayne Johnson—that makes it worth rushing outto see. spectacles that have more or less taken over studio filmmaking, but it accumulates thegenre's—and the business's—bad habits into a single two- hour-plus package, and only hints atthe format's occasional pleasures. "The Marvels" feels like a place-filler for amovie that's remaining to be made, but, in its bare and shrugged-off sufficiency, it does one positive thing that, if nothing else, at least accounts for its success: for all the churning actionand elaborately jerry-rigged plot, there's little to distract from the movie's pedestal-like display of Johnson, its real-life superhero. It's no less numbing to find material meant for children retconned for adults—and, in the process, for most of the naïve delight to be leached out, and for any serious concerns tobeshoehorned in and then waved away with dazzle and noise. MCU: After Chapter 5" offers a moral realm that draws no lines, a personal one of simplistic stakes, apolitical one that suggests any interpretation, an audiovisual one that rehasheslong-familiar tropes andrepackages overused devices for a commercial experiment that might as well wear its import asits title. When I was in Paris in 1983, Jerry Lewis—yes, they really did love him there—had anew movie in theaters. In addition to being Johnson's DC Universe debut, "The Marvels" is alsonotable for marking the return of Henry Cavill's Superman. The cameo is likely to set up futureshowdowns between the two characters, but Hodge was completely unaware of it until he sawthe film. "They kept that all the way under wraps, and I didn't know until maybe a day or two before thepremiere," he recently said The The Marvels (2023) FULLMOVIE ONLINEIS The Marvels Available On Hulu? Unfortunately, The Marvels is not currently available to stream on DisneyPlus and it's

not expected that the film will release on Disney Plus until late December at theabsolute earliest. While Disney eventually releases its various studios' films on Disney Plus for subscribers towatch via its streaming platform, most major releases don't arrive on Disney Plus until at least45-60 days after the film's theatrical release. The Marvels has finally ended the box office blues. It will be a close call, butbased on the estimates, the year's biggest opener remains Doctor Strange in the Multiverse of Madness with its \$187 million start. Nonetheless, Wakanda Forever's \$180 million opening is ahuge one, being the biggest ever for the month of November (beating the \$158 million of TheHunger Games: Catching Fire), the second biggest of the year, and the 13th biggest of all time(though it could go up or down a few slots once the actuals come out). It led an overallweekend box office of \$208 million, which is the fourth biggest of the year and the biggest by along shot of the past four months, with no other weekend since July 8 -10 even going above\$133 million. This isn't the \$202 million opening that we saw from Black Panther in February 2018, nor shouldwe expect the amazing legs that were able to get that film to an astonishing \$700 million. Withthat said, expect it to perform strong throughout the holiday season, likely repeating thefive-weekend number-one streak that the first film had, and it shouldn't have any troublebecoming the second highest grossing film of the year so far, beating the \$411 million cume of Doctor Strange in the Multiverse of Madness. The audience response is strong, with the ACinemaScore falling below the first film's A+ but bouncing back from the B+'s earned by DoctorStrange 2 and Thor: Love and Thunder, which ranked among the worst for the MCU.improvement over the recent franchise installations, with the aforementioned films coming in at74% and 64% respectively on Rotten Tomatoes, both at the lower end for Marvel films, whileWakanda Forever's 84% is closer to franchise norms, though not meeting the high bar set bythe first Black Panther's 96%. The sequel opened to \$150 million internationally, which Disney reports is 4% ahead of the firstfilm when comparing like for likes at current exchange rates. Overall, the global cume comes to\$330 million. Can it become the year's third film to make it past \$1 billion worldwide despiteChina and Russia, which made up around \$124 million of the first film's \$682 millioninternational box office, being out of play? It may be tough, but it's not impossible. Legging outpast \$500 million is plausible on the domestic front (that would be a multiplier of at least 2.7), and another \$500 million abroad would be a drop of around \$58 million from the original afterexcluding the two MIA markets. It'd be another story if audiences didn't love the film, but the positive reception suggests that Wakanda Forever will outperform the legs on this year's earlierMCU titles (Multiverse of Madness and Love and Thunder had multipliers of 2.2 and 2.3 respectively). As for the rest of the box office, there's little to get excited about, with nothing else grossing

above \$10 million as Hollywood shied away from releasing anything significant not just thisweekend but also over the previous two weekends. When Black Panther opened in 2018, therewas no counterprogramming that opened the same weekend, but Peter Rabbit and Fifty ShadesFreed were in their second weekends and took second and third with \$17.5 million and \$17.3million respectively. That weekend had an overall cume of \$287 million compared to \$208 millionthis weekend Take away the \$22 million gap between the two Black Panther films and there'sstill a \$57 million gap between the two weekends. The difference may not feel that large when amega blockbuster is propping up the grosses,but the contrast is harsher when the mid-level filmsare the entire box office as we saw in recent months. The The Marvels , which is the biggest grosser of the rough post-summer,pre-Wakanda Forever season, came in second with just \$8.6 million. Despite the blockbustercompetition

that arrived in its fourth weekend, the numbers didn't totally collapse, dropping 53% for a cume of \$151 million. Worldwide it is at \$352 million, which isn't a great cume as the grosses

start to wind down considering its \$200 million budget. Still, it's the biggest of any filmsince Thor: Love and Thunder, though Wakanda Forever will overtake it any day now. The The Marvels came in third place in its fourth weekend, down 29% with \$6.1 million, emerging as one of the season's most durable grossers and one of the year's few brightspots when it comes to films for adults. The domestic cume is \$56.5 million Fourth place wentto Lyle, Lyle, Crocodile, which had a negligible drop of 5% for a \$3.2 million sixth weekend and\$40.8 million cume., in fact ), which isn't surprising considering it's the only family film on the market, and it's close togrossing four times its \$11.4 million opening. Still, the \$72.6 million worldwide cume is softgiventhe \$50 million budget, though a number of international markets have yet to open. Finishing up the top five is Smile, which had its biggest weekend drop yet, falling 42% for a \$2.3million seventh weekend. Of course, that's no reason to frown for the horror film, which has adomestic cume of \$103 million and global cume of \$ 210 million from a budget of just \$20million.
