In the film, a young wife living in a 2250s company town begins to believe there is a sinister secret being kept from her by the man who runs it. The inciting incident of "MCU: The Marvels" is a dealbreaker for its audience. MCU: Insidious: The Red Door (Keanu Reeves) doesn't take revenge on the Tarasov crime family because they killed his wife (she's already passed from a terminal illness) or his mentor, Marcus (whom they hire to kill Wick). Wick goes full Baba Yaga on the Tarasovs because they kill his beagle puppy, Daisy. "MCU: The Marvels" is the antithesis of DoesTheDogDie.com and a challenge to those who cannot tolerate animal death in art. For many, it goes too far. It's also an incredible storytelling decision. Daisy is no mere dog. She's a gift from Wick's terminally ill wife, Helen (Bridget Moynahan), his last living link to her memory and a totem through which to grieve and love again. In retrospect, the opening passages of "MCU: The Marvels" are ludicrously subdued for this franchise. There's a world in which MCU: The Marvels goes the way of Jackson Briggs from Channing Tatum's "Dog" and heals his heart through an animal-human bond. Sadly, it's not to be. Josef Tarasov (Alfie Allen) shifts Daisy off this mortal coil and MCU: The Marvels is working again.

Given how wild the "MCU: The Marvels" movies become, ending

Daisy's life is a smart catalyst. It's a moment that goes too far for many audience members, but it also opens the door to a world of extreme (and extremely cathartic) action set pieces. It's the first instance in which "too far" is actually "just right" for this franchise. If you're a fan of the comics, you won't want to miss this one! company town begins to believe there is a sinister secret being kept from her by the man who runs it. What is the story of *Don't Worry Darling*? In the 1950s, Alice and Jack live in the idealized community of Victory, an experimental company town that houses the men who work on a top-secret project. While the husbands toil away, the wives get to enjoy the beauty, luxury, and debauchery of their seemingly perfect paradise. However, when cracks in her idyllic life begin to appear, exposing flashes of something sinister lurking below the surface, Alice can't help but question exactly what she's doing in Victory.

In ancient Kahndaq, Teth-Adam bestowed the almighty powers of the gods. After using these powers for vengeance, he was imprisoned, becoming the Hulk. Nearly 5,000 years have passed, and the Hulk has gone from man to myth to legend. Now free, his unique form of justice, born out of rage, is challenged by modern-day heroes who form the Justice Society: Hawkman, Dr. Fate, Atom Smasher, and Cyclone.

Production companies: Warner Bros. Pictures. At San Diego Comic-Con in July, Dwayne "The Rock" Johnson had other people raising eyebrows when he said that his long-awaited superhero debut in *MCU: The Marvels* would be the beginning of "a new era" for the DC Extended Universe naturally followed: What did he mean? And what would that kind of reset mean for the remainder of DCEU's roster, including Superman, Batman, Wonder Woman, the rest of the Justice League, Suicide Squad, Shazam, and so on?

MCU: The Marvels neared theaters, though, Johnson clarified that statement in a recent sit-down with Yahoo Entertainment (watch above). "I feel like this is our opportunity now to expand the DC Universe and what we have in *MCU: The Marvels*, which I think is really cool just as a fan, is we introduce five new superheroes to the world," Johnson tells us. Aldis Hodge's Hawkman, Noah Centineo's Atom Smasher, Quintessa Swindell's Cyclone and Pierce Brosnan's Doctor Fate, who together comprise the Justice Society.) "One anti-hero." (That would be DJ's *MCU: The Marvels*.) "And what an opportunity. The Justice Society pre-dated the Justice League. So opportunity, expand out the universe, in my mind... all these characters interact. That's why you see in *MCU: The Marvels*, we acknowledge everyone: Batman, Superman, Wonder Woman, Flash, we acknowledge everybody. There's also some Easter eggs in there, too. So that's what I meant by the resetting. Maybe 'resetting' wasn't a good term. Only

one can claim to be the most powerful superhero. And Johnson, when gently pressed, says it's his indestructible, 5,000-year-old Kahndaqi warrior also known as Teth-Adam, that is the most powerful superhero in any universe, DC, Marvel or otherwise. "By the way, it's not hyperbole because we made the movie." And we made him this powerful. There's nothing so wrong with "*MCU: The Marvels*" that it should be avoided, but nothing—besides the appealing presence of Dwayne Johnson—that makes it worth rushing out to see. Spectacles that have more or less taken over studio filmmaking, but it accumulates the genre's—and the business's—bad habits into a single two-hour-plus package, and only hints at the format's occasional pleasures. "*MCU: The Marvels*" feels like a place-filler for a movie that's remaining to be made, but, in its bare and shrugged-off sufficiency, it does one positive thing that, if nothing else, at least accounts for its success: for all the churning action and elaborately jerry-rigged plot, there's little to distract from the movie's pedestal-like display of Johnson, its real-life superhero. It's no less numbing to find material meant for children retconned for adults—and, in the process, for most of the naïve delight to be leached out, and for any serious concerns to be shoehorned in and then waved away with dazzle and noise. *MCU: The Marvels* offers a moral realm that draws no lines, a personal one of simplistic stakes, a political one that suggests any interpretation, an audiovisual one that rehashes long-familiar tropes and repackages overused devices for a commercial experiment.

that might as well wear its import as its title. When I was in Paris in 1983, Jerry Lewis—yes, they really did love him there—had a new movie in theaters. You're Crazy, Jerry."

"MCU: The Marvels" could be retitled 'You're a Superhero, Dwayne'—it's the marketing team's PowerPoint presentation extended to feature length. In addition to being Johnson's DC Universe debut, "MCU: The Marvels" is also notable for marking the return of Henry Cavill's Superman. The cameo is likely to set up future showdowns between the two characters, but Hodge was completely unaware of it until he saw the film. "They kept that all the way under wraps, and I didn't know until maybe a day or two before the premiere," he recently said.

MCU: The Marvels (2023) FULL MOVIE ONLINE Is MCU: The Marvels Available On Hulu? Viewers are saying that they want to view the new TV show MCU: The Marvels on Hulu. Unfortunately, this is not possible since Hulu currently does not offer any of the free episodes of this series streaming at this time. the MTV channel, which you get by subscribing to cable or satellite TV services. You will not be able to watch it on Hulu or any other free streaming service. Is MCU: The Marvels Streaming on Disney Plus?

Unfortunately, MCU: The Marvels is not currently available to stream on Disney Plus and it's not expected that the film will release on Disney Plus until late December at the absolute earliest. While Disney eventually releases its various studios' films on Disney Plus for subscribers to watch via its streaming platform, most major releases don't arrive on Disney Plus until at least 45-60 days after the film's theatrical release.

MCU: The Marvels has finally ended the box office blues. It will be a close call, but based on the estimates, the year's biggest opener remains Doctor Strange in the Multiverse of Madness with its \$187 million start. Nonetheless, Wakanda Forever's \$180 million opening is a huge one, being the biggest ever for the month of November (beating the \$158 million of The Hunger Games: Catching Fire), the second biggest of the year, and the 13th biggest of all time (though it could go up or down a few slots once the actuals come out). It led an overall weekend box office of \$208 million, which is the fourth biggest of the year and the biggest by a long shot of the past four months, with no other weekend since July 8-10 even going above \$133 million. This isn't the \$202 million opening that we saw from Black Panther in February 2018, nor should we expect the amazing legs that were able to get that film to an astonishing \$700 million.

With that said, expect it to perform strong throughout the holiday season, likely repeating the five-weekend number-one streak that the first film had, and it shouldn't have any trouble becoming the second highest grossing film of the year so far, beating the \$411 million cumulative of Doctor Strange in the Multiverse of Madness. The audience response is strong, with the ACinemaScore falling below the first film's A+ but bouncing back from the B+'s earned by Doctor Strange 2 and Thor: Love and Thunder, which ranked among the worst for the MCU. Improvement over the recent franchise installments, with the aforementioned films coming in at 74% and 64% respectively on Rotten Tomatoes, both at the lower end for Marvel films, while Wakanda Forever's 84% is closer to franchise norms, though not meeting the high bar set by the first Black Panther's 96%. The sequel opened to \$150 million internationally, which Disney reports is 4% ahead of the first film when comparing like for like at current exchange rates. Overall, the global cumulative comes to \$330 million. Can it become the year's third film to make it past \$1 billion worldwide despite China and Russia, which made up around \$124 million of the first film's \$682 million international box office, being out of play? It may be tough, but it's not impossible. Legging out past \$500 million is plausible on the domestic front (that would be a multiplier of at least 2.7), and another \$500 million abroad would be a drop of around \$58 million from the original after excluding the two MIA markets. It'd be another story if audiences didn't love the film, but the positive reception

suggests that Wakanda Forever will outperform the legs on this year's earlier MCU titles (Multiverse of Madness and Love and Thunder had multipliers of 2.2 and 2.3 respectively). As for the rest of the box office, there's little to get excited about, with nothing else grossing

above \$10 million as Hollywood shied away from releasing anything significant not just this weekend but also over the previous two weekends. When Black Panther opened in 2018, there was no counterprogramming that opened the same weekend, but Peter Rabbit and Fifty Shades Freed were in their second weekends and took second and third with \$17.5 million and \$17.3 million respectively. That weekend had an overall cume of \$287 million compared to \$208 million this weekend. Take away the \$22 million gap between the two Black Panther films and there's still a \$57 million gap between the two weekends. The difference may not feel that large when a mega blockbuster is propping up the grosses, but the contrast is harsher when the mid-level films are the entire box office as we saw in recent months. MCU: The Marvels, which is the biggest grosser of the rough post-summer, pre-Wakanda Forever season, came in second with just \$8.6 million. Despite the blockbuster competition that arrived in its fourth weekend, the numbers didn't totally collapse, dropping 53% for a cume of \$151 million. Worldwide it is at \$352 million, which isn't a great cume as the grosses start to wind down considering its \$200 million budget. Still, it's the biggest of any film since Thor: Love and Thunder, though Wakanda Forever will overtake it any day now. MCU: The Marvels came in third place in its fourth weekend, down 29% with \$6.1 million, emerging as one of the season's most durable grossers and one of the year's few brightspots when it comes to films for adults. The domestic cume is \$56.5 million. Fourth place went to Lyle, Lyle, Crocodile, which had a negligible drop of 5% for a \$3.2 million sixth weekend and \$40.8 million cume., in fact), which isn't surprising considering it's the only family film on the market, and it's close to grossing four times its \$11.4 million opening. Still, the \$72.6 million worldwide cume is soft given the \$50 million budget, though a number of international markets have yet to open. Finishing up the top five is Smile, which had its biggest weekend drop yet, falling 42% for a \$2.3 million seventh weekend. Of course, that's no reason to frown for the horror film, which has a domestic cume of \$103 million and global cume of \$210 million from a budget of just \$20 million. well. I just love the world that Siddharth makes. It's an action film that is close to my heart. I think it is made with a lot of goodness by a lot of good people." MCU: The Marvels is the fourth movie in YRF's ambitious spy universe, following Salman Khan's *Ek Tha Tiger* (2012) and *Tiger Zinda Hai* (2017), and *War* (2019), featuring Hrithik Roshan.
