At San Diego Comic-Con in July, Dwayne "The Rock" Johnson had other people raisingeyebrows when he said that his long-awaited superhero debut in The Marvels Moviewould be the beginning of "a new era" for the DC Extended Universe naturally followed: Whatdid he mean? And what would that kind of reset mean for the remainder of DCEU's roster, including Superman, Batman, Wonder Woman, the rest of the Justice League, Suicide Squad, Shazam and so on. As The Marvels Movie neared theaters, though, Johnson clarified that statement in arecent sit-down with Yahoo Entertainment (watch above).

I feel like this is our opportunity now to expand the DC Universe and what we have in TheExorcist: Believer Movie, which I think is really cool just as a fan, is we introduce five newsuperheroes to the world, Johnson tells us. Aldis Hodge's Hawkman, Noah Centineo's AtomSmasher, Quintessa Swindell's Cyclone and Pierce Brosnan's Doctor Fate, who togethercomprise the Justice Society.) One anti-hero." (That would be DJ's The MarvelsMovie.

And what an opportunity. The Justice Society pre-dated the Justice League. So opportunity, expand out the universe, in my mind all these characters interact. That's why you see in TheExorcist: Believer Movie, we acknowledge everyone: Batman, Superman, Wonder Woman, Flash, we acknowledge everybody. There's

also some Easter eggs in there, too. So that's what Imeant by the resetting. Maybe 'resetting' wasn't a good term.onlyone can claim to be the most powerful superhero . And Johnson, when gently pressed, says it'shis indestructible, 5,000-year-old Kahndaqi warrior also known as Teth-Adam, that is the mostpowerful superhero in any universe, DC, Marvel or otherwise.

"By the way, it's not hyperbole because we made the movie." And we made him this powerful. There's nothing so wrong with "The Marvels Movie" that it should be avoided, butnothing—besides the appealing presence of Dwayne Johnsonthat makes it worth rushing out tosee. spectacles that have more or less taken over studio filmmaking, but it accumulates thegenre's and the business's—bad habits into a single two-hour-plus package, and only hints atthe format's occasional pleasures. "The Marvels Movie feels like a place-filler for amovie that's remaining to be made, but, in its bare and shrugged-off sufficiency, it does one positive thing that, if nothing else, at least accounts for its success: for all the churning actionand elaborately jerry-rigged plot, there's little to distract from the movie's pedestal-like display of Johnson, its real-life superhero.

It's no less numbing to find material meant for children retconned for adultsand, in the process, for most of the naïve delight to be leached out, and for any serious concerns to be shoehornedin and then waved away with dazzle and noise. The Marvels Movie" offers a moralrealm that draws no lines, a personal one of simplistic stakes, a political one that suggests anyinterpretation, an audiovisual one that rehashes long-familiar tropes and repackages overuseddevices for a commercial experiment that might as well wear its import as its title. When I was inParis in 1983, Jerry Lewis—yes, they really did love him therehad a new movie in theaters. You're Crazy, Jerry. "The Marvels Movie" could be retitled 'You're a Superhero, Dwayne'it's the marketing team's PowerPoint presentation extended to feature length.

In addition to being Johnson's DC Universe debut, "The Marvels Movie" is also notable for marking the return of Henry Cavill's Superman. The cameo is likely to set up futureshowdowns between the two characters, but Hodge was completely unaware of it until he sawthe film.

"They kept that all the way under wraps, and I didn't know until maybe a day or two before the premiere, he recently said The Marvels Movie Wakanda Forever (2022) FULLMOVIEONLINEThe Marvels Movie

Today, Universal/Blumhouse's The Marvels is clocking past the \$100M domestic mark, a box office milestone for the studio when it comes to its experimental theatrical day-and-date releases on its Peacock streaming service.

That's not only the highest that Uni has seen from a pic that's been distributed via such means at the box office, but it's also per the conglom the most viewed movie or series ever for the OTT paid service in its first five days, outstripping the debuts of Halloween Ends, The Super Mario Bros. Movie, Bel-Air and The Best Man: The Final Chapters.

Among those day-and-date theatrical releases which played simultaneously on streaming services, Freddy's crosses the \$100M mark in eight days, the second-fastest type of dynamic release to do so after Marvel Studios' Black Widow which did it in six days while streaming on Disney+ back in July 2021 (that pic available to that Disney+ subs at an extra cost of \$25).

Uni's decision to go day-and-date didn't have to do with their lack of confidence in the Freddy's brand, rather the opposite. It was a film armed with such a strong fandom, that studio execs knew a day-and-date maneuver wouldn't damage the pic's opening weekend box office.

"It had a fanship that wasn't going to be deterred by being at home," says one tracking source about the IP's ride-or-die millennial following; that evident in the pic's Oppenheimer sized U.S./Canada opening of \$80M last weekend. Speaking of Oppenheimer, and even Illumination's Super Mario Bros, it's the third time that Uni has been able to harness a cultural zeitgeist this year at the box office. Seeing a double win for the fledgling Peacock which counts 28M, Freddy's proved an opportunity to attract at 13-17 demo to the Comcast-owned streamer.

The Teflon nature and fandom fortitude of the Freddy's franchise was witnessed first-hand by Universal anytime producer Jason Blum tweeted anything about the film going back to February 2018 when he first announced the project with then Harry Potter filmmaker Chris Columbus (who eventually stepped away). See below. Previously Warner Bros was set to make a movie based on the popular Scott Cawthon created 2014 videogame with Roy Lee, David Katzenberg, and Seth Grahame-Smith producing and Gil Kenan directing and co-writing. The film never got off the ground, and when the option came up in 2017, Blum swooped in.
